

**Code: BBB121S**

Bora Sensor Power-Safe - electronic wall mounted faucet for cold or premixed water

<https://www.ferrocompany.com/product-4604-BBB121S.html>

- power supply: 230V/9V transformer 9V battery (standby power supply)
- main connection: 1 x 1/2" M
- permissible working pressure: 0,5 bar - 8,0 bar (7-116 PSI)
- water flow: ~5,0 l/min (at 3 bar dynamic pressure)
- flow regulator: M18x1
- sensor range: adjustable within 40-170 mm range
- security time against continuous flushing: 90 seconds
- permissible water temperature: 70°C
- finish: chrome
- recommended mixing valves:
  - MM10 - mechanical mixing valve 3/8"
  - MT15B - thermostatic mixing valve 1/2"
- settings setup: with RC01 remote control
