

**FERRO®**

## Welcome to the world of FERRO

The FERRO Group is one of the largest manufacturers of sanitary and plumbing fixtures in Central and Eastern Europe with nearly 30 years of experience in the industry. Thanks to its commitment to high product quality and its mission to meet customer needs for a safe and well-functioning home, Ferro products are present in millions of facilities. Every year we introduce new products to the market, which better and better meet the expectations of even the most demanding customers.

## Quality Inspection

FERRO truly pays attention to the excellent quality of its products. The company places particular emphasis on meeting the requirements of the applicable standards, maintaining high technical parameters, safety and functionality of products. All the company's products are subject to extremely accurate and restrictive quality verification procedures. They are inspected at every production stand. The correct course of quality control processes is supervised by highly qualified engineers responsible for quality and product certification. The auditors check compliance with the procedures of the quality assurance system. These include the procedures specified in the Polish PN and European PN-EN series standards and the procedures related to the Quality Management System.

# KITCHEN SOLUTIONS

[export@ferro.pl](mailto:export@ferro.pl)

# Pictograms and function symbols

To increase clarity and facilitate the use of product information, their main features and functions are presented in the form of icons.

**Product warranty period expressed in years.** The number placed in this sign informs about the warranty years for the product.

**Eco+**  
Products with this symbol use less water and energy compared to standard models.

**FERRO AirMix**  
Mixer aerator with additional water aeration system. It allows you to use less water while maintaining the comfort of an abundant stream.

**FerroClick**  
Hot water control system and fully-open flow control system.

**Pull-out spout**  
The spout with pull-out hose increases the comfort of filling tall vessels and allows for precise washing and rinsing.

**Swivel spout**  
The spout rotates 360 degrees.

**Two spouts**  
A product with two independently controlled spouts.

**Flexible spout**  
The spout can be freely controlled to precisely direct the jet when rinsing or filling dishes.

**Foldable spout**  
The mixer is designed to be mounted in front of a window; a foldable spout allows opening the window.

**Cold Start**  
This function allows you to run cold water in one movement, thus saving energy and increasing your comfort, whenever you want to quickly fill a vessel with cold water.

**Reversible sink**  
The sink can be installed so that, depending on the needs, the drainer is on the left or right side.

**Drain plug in the set**  
Drain plug complete with sink.

# More than you expect

**Considering the variety of styles and possibilities of choosing kitchen equipment, it would be worth taking a moment to find perfectly matching products for our kitchen.**

The Ferro Kitchen catalogue is a simple and easy guide allowing us to select the perfect mixers and sinks based on needs and tastes. Learn more about Ferro Kitchens and let yourself be pleasantly surprised.

# CATALOGUE 2021

Our main objective, during the process of creating the Kitchen Solutions Catalogue, was to highlight the individual characteristics of the products in such a way that the elements important for the customer when choosing the equipment for his kitchen are clearly presented

and make the choice easier.

What is most important for us is the user of our products, therefore when designing solutions for the home we make every effort to make our proposals not only functional and comfortable, but also aesthetic and decorative.

# Every product has a good reason

The kitchen is the heart of the home, choosing the highest quality equipment, tailored to individual needs and meeting the functional requirements is a big challenge. That is why it is worthwhile to learn more about the functions and possibilities of different models of kitchen mixers before buying them. Ferro offers a full range of mixers of different designs, equipped with additional functions and thus giving new possibilities to improve everyday work in the kitchen.

# Functional overview

Ferro kitchen mixers, thanks to their high quality, variety of forms and functions, will satisfy even the most demanding customers. Timeless, stylish design, different colours of finish, and above all, practical and modern solutions will make your kitchen not only look nice but also become functional.

CHOOSE THE PERFECT MIXER  
FOR YOUR KITCHEN.

## Pull-out spout

The spout with pull-out hose increases the comfort of filling tall vessels and allows for precise washing and rinsing. It makes it easier to fill deep or large dishes without placing them in the sink, as well as thorough washing of vegetables and fruits.

## Swivel spout

A practical solution when using a sink, especially a Double bowl sink. Thanks to manual rotation it makes it easier to fill bottles and jugs with water.

### **Flexible** spout

Extremely useful function for people who appreciate free and comfortable use of mixers. It allows you to give the spout any shape, change the height and range of the water jet according to your needs, allowing for quick rinsing of dishes or comfortable cleaning of the sink.

### **Foldable** spout

Ideal solution for users who want to install the sink under a window and make optimal use of space without losing comfort. A mixer tap with this function allows you to open and close the window sash without any problems.

### **Two** spouts

Two independent spouts in one mixer is a remarkable solution, giving new quality in use. This function allows you to use the selected spout depending on your needs. A fixed spout can be used to fill dishes, while a high, extendable spout with an additional nozzle with a shower jet will make it easier for us to wash fruits and vegetables.

## Shower/ jet

The stream switch will be appreciated by everyone who wants to use time efficiently in the kitchen. The handy mixer stream switch gives you the possibility of quick change depending on the application.

## Eco Aerator

When you make a decision to choose a mixer for your kitchen, where you often wash dishes as well as products under running water, it would be worthwhile to consider buying a mixer with an aerator that reduces water flow, marked with the Eco symbol.

## Cold start

The cold start function is another cost saving solution. With the ability to run cold water from a central position, it allows us to save on hot water intake when it is not necessary and quicker control.

# Functional overview

Ferro kitchen mixers provide practical solutions offering plenty of space for easy use of the mixers, guarantee comfortable washing and even filling of dishes outside the sink with water. When you choose Ferro kitchen mixers, you choose a great deal of comfort during your daily kitchen work.

The elegant appearance of the mixer emphasizes both its attractive design and impressive surfaces. The colour scheme of the product can enliven or brighten up the kitchen arrangement, or blend in perfectly with the interior design.

### Chrome

Shiny chrome coating gives each arrangement a unique splendour.

### Stainless steel

The grey hue of steel will emphasize the industrial and loft style of the interior.

### Black-chrome

This fashionable combination of colours is the best proposal for large, elegant kitchens with an island.

### White-chrome

White in combination with glossy chrome will perfectly enliven and brighten up the kitchen interior.

### Granite graphite

A mixer with a granite surface in graphite will best present itself with a granite sink in graphite. It will give the interior a dignified and elegant look.

### Granite sand

A granite surface with a sandy colour will warm up the kitchen decor. A mixer with such a surface will be a perfect match with the granite sink in the same shade.

The surfaces in accordance with the latest trends in design also provide **excellent protection for mixers against negative external factors.**

# F-MASTER

Better and smarter

I am a professional. Above all, I require the equipment I choose to be functional and reliable during the many moments spent in the kitchen.

So, I chose the Ferro F-Master. This mixer, in addition to its incredibly interesting shape, is primarily multifunctional and comfortable to use.

**BFE41** Multi-functional sink mixer

## Well-conceived solutions

The swivel and flexible spout makes it easy to use the sink, the pull-out spout will allow us to comfortably wash large pots, while the possibility of changing the water jet gives a quick change depending on the application.

### MIXER

**Multi-functional sink mixer**  
chrome

**BFE41**

ADORE WHITE/CHROME

BDR4 Standing sink mixer

# ADORE WHITE/CHROME

Delicate and beautiful

Breaking the classic form with a modern finish – playing around with style characterizes the atmosphere of this interior. I chose Adore White/Chrome for my kitchen precisely because its

white finish is unusual and adds lightness to the interior. The chrome elements, on the other hand, sharpen its flat surfaces creating a mirror-like glow.

BDR4 Standing sink mixer

## A subtle combination

The white of the lower part of the spout adds lightness creating, as it seems, an additional frame for the chrome element and a perfect mirror. This combination is so universal that it fits both in white interiors and in a colourful kitchen.

**MIXER** —————

**Standing sink mixer**  
white-chrome

**BDR4**

When deciding on the Ferro sink mixer, we took into account its practical values such as ease of cleaning and its aesthetic qualities - a simple, high and functional spout.

**BDR4BLC** Standing sink mixer

# ADORE BLACK/CHROME

## Perfect combination

The kitchen in the old tenement house gave us the opportunity to arrange the space in any way we desired. The surface area did not limit us to organize only the functional and ergonomic zone of food preparation, but to create a place that is the culmination of the living room and creates a

neutral area with a distinctive sink zone, at the centre of which is the Adore Black/Chrome mixer. It is this strongly contrasting element that focuses attention and complements the set of black accessories.

BDR4BLC Standing sink mixer

## Comfortable and practical

Black is elegance and chic. Black accessories can also be practical and timeless. Chrome elements soften the severity of blackness in Adore Black/Chrome mixers.

### MIXER

**Standing sink mixer**  
black-chrome

**BDR4BLC**

The family zone is a place where something new is constantly happening. Contrary to myths, black accessories are easy to keep clean and always look elegant.

our tickets

# ESPACIO

At the heart of a home

The kitchen is the heart of the home, so it was very important for us to create a friendly interior. For our island, which is also a breakfast table and dining area, as well as a place for family meetings, I

chose a small simple sink and a functional Espacio mixer. Its classic high spout looks very chic, and the slightly slanted position of the aerator gives additional comfort.

BES4 Standing sink mixer

## Details count

The handle located vertically on the side and the simplicity of operating the mixer is another plus for everyday work in the kitchen. Espacio is a model where functionality is refined down to the smallest detail.

### MIXER

**Standing sink mixer**  
chrome

**BES4**

**BLE4B** Standing sink mixer

# LIBRETTO

## Scandinavian look

My space, my rules. Pure form without unnecessary additions and maximum efficiency. When choosing a mixer I had no doubts. The

Libretto has all the features that are important to me - movable, flexible spout, stream switch and very visually attractive shape.

BLE4B Standing sink mixer

## A well-conceived solution

The swivel and flexible spout makes it easier to use the sink, the pull-out spout will allow us to comfortably wash large pots and the option of changing the water jet gives you the possibility to choose its type depending on the activity performed in the sink area.

### MIXER

Standing sink mixer  
with pull-out spout  
chrome

**BLE4B**

# MAESTRO

Free chic

The beautiful form of the kitchen taps can make even a very simple ascetic interior take on character and creates a unique whole. The Maestro kitchen mixer was created for

connoisseurs of style. Its pull-out spout is mounted on a handle, which resembles an asymmetrical arc and is a real decoration of the kitchen.

**BMS4** Standing sink mixer with pull-out spray

## Functionality with uncompromising style

Thanks to the high swivel spout, you can easily fill any dish, such as a large pot or watering can. After pulling it out of the handle, the tip can be pointed in any direction, this way you can easily rinse the sink or fill a heavy pot standing on the table top next to you.

### MIXER

**Standing sink mixer  
with pull-out spout**  
chrome

**BMS4**

**BNA4** Standing sink mixer

# SONATA

In a good tone

Timeless solutions, impressive interior, comfortable space are the characteristics of my apartment. The space was created especially for me, tailored to my personality and style. All kinds of equipment and fittings are extremely

important, that's why I decided on Sonata, which looks brilliant on a stone island. My designer described this style as classic with a touch of luxury.

## Symphony of taste

The choice of finishing materials and colour composition determines the character of the interior. It is worthwhile to make sure that together they create a whole and not compete between each other.

### MIXER

**Standing sink mixer**  
chrome

**BNA4**

# RAPSODY

Always in good shape

Simple space arrangement and bright colours are the only criteria that were taken into account when choosing an apartment. Maybe not much, but when they were met, I was happy to be there. I took care of the kitchen equipment myself and

decided on white and silver. For the steel sink I chose a Rapsody mixer with an interesting but simple shape and a flat, rotating top spout. This interior reflects my character.

MIXER

Standing sink mixer  
chrome

**BRY4**

**BRY4** Standing sink mixer  
**DR50/80D.H** Double bowl sink

**BT4FUW** Standing sink mixer

# TOLEDO

## Surprising and full of possibilities

The key for choosing fixtures, apart from matching them to the kitchen interior, is the functions they should meet depending on individual needs. If you dream of placing the sink under the window, nothing can stand in the way. In order to maintain free access and comfort of using the window, it is worth choosing a sink mixer with a folding spout. The Toledo under-window mixer is an ideal

solution for the under-window sink area in the kitchen. If you want to equip your kitchen with a mixer with a pull-out spout, but at the same time you like classic solutions and want it to look chic, the Toledo mixer, a model with a pull-out spout, aesthetic in a simple form, will be the perfect choice.

KITCHEN SOLUTIONS

BAQ4 Standing sink mixer

# ALGEO SQUARE

Inspiring day-by-day

For us, the kitchen is a place where we spend time in a pleasant fashion - in a filled with light, simple interior, where accessories add variety to the arrangement. Our bright sink with a drainer, simple in its form was matched with the mixer, whose

modern simple shape of the handle creates, all-in-all, an original and modern look. Summer colours retained in the finishing elements of our kitchen have an optimistic effect on both residents as well as guests.

BAQ4 Standing sink mixer

## Vacations last all year round in the kitchen.

Culinary experiences, dishes that remind us of the places we once visited and having fun tasting various dishes are our idea for weekends together. Cuisine adventures in the kitchen create our memories.

MIXER

**Standing sink mixer**  
chrome

**BAQ4**

# FIESTA

## A friend in the kitchen

We live an active life, we are consumed by our duties, therefore moments spent together are invaluable for us. A steel sink and a simple classic and raw Fiesta mixer emphasize the loft character of my kitchen. Here you cook well and have

a nice time. The centrally located island adds functionality to the interior, steel and brick add character.

For me, durable and timeless solutions are a priority.

BF14 Standing sink mixer

## Cooking together

Cooking has always been my greatest passion. My skills and new tastes impact the people close to my heart. With time we managed to form a team of creators of unusual dishes. It is our way of spending free time together, that is why the kitchen is such an important place for me.

MIXER

**Standing sink mixer**  
chrome

**BF14**

BZ14 Standing sink mixer

# ZICCO

## Simply modern

The interior should have character, and this is determined by the accessories. Geometry and order of form and shape tempered by metallic elements is our choice. For a simple sink, we chose

the Zicco mixer because of its cubist form. The spout with its evenly cut sides and angular body look fashionable and modern. The whole gives the impression of an orderly, clean space.

**BZI4** Standing sink mixer

## Fashionable and minimalistic

If you want your kitchen to look impressive, keep in mind that each of the elements should match the chosen style. With such a variety of forms and shapes of mixers, it would be worthwhile to choose a mixer that will further strengthen the character of the interior.

MIXER

**Standing sink mixer**  
chrome

**BZI4**

BZI4BL Standing sink mixer

# ZICCO BLACK

## Home mix

A large space creates a lot of possibilities. It is also a way to compose an optimal kitchen set to suit your needs. We value the time spent together more than cooking, so we have

arranged our kitchen in this way. I appreciate simple accessories. When I saw the black Zicco, I immediately decided to go for it. The shape, finish, original style - everything spoke for this choice.

BZI4BL Standing sink mixer

## The decisive detail

It is said that beauty lies in details. This detail is a simple fashionable handle, whose form is perfectly composed with the rest of the mixer.

MIXER —————

Standing sink mixer  
chrome

**BZI4BL**

BLG4 Standing sink mixer

# LUGIO

The classic always wins

Choosing home accessories is often quite a challenge. The multitude and variety of forms and finishes does not facilitate this process. It is worth betting on classic forms and everlasting models when we are not sure which style our

mixers will fit into. If that is the case, then the Lugio mixer is the right choice. Its classic, functional handle fits the modern style, but it will also fit into the classic. The spout arch will add charm to any kitchen.

**BLG4** Standing sink mixer

## We don't want our home to change

In our daily rush and among the many duties we have, we found a space where we do not have to count time. Our home is a pillar of stability, a place of refuge which gives us energy to live. We like spending time here, this is our space and we do not want it to change.

MIXER

**Standing sink mixer**  
chrome

**BLG4**

# LUGIO BLACK

Fashionable and timeless

Style matters within the interior. It is style that makes us feel exceptionally good in some kitchens. It does not matter whether the space is large or not. In this case, the kitchen corner, despite its compact size, has become a great showcase of the house separated from the rest

of the space by a glass wall. The black granite sink is a perfect base for a black kitchen mixer. Lugio Black is one of the new proposals in the range of Ferro kitchen mixers. The classic form of the spout in black looks exceptionally stylish.

**BAG4** Standing sink mixer

# ALGEO

## Tastes of home

Whitewashed surfaces, bright furniture and lots of light. I have always dreamt of creating such a home. There is so much joy in me now, when I look at my kitchen. This is my place! I was persuaded to choose the mixer and sink by my mother, who

has been loyal to Ferro products for years as they have proven to be excellent all that time. Now I share her opinion. We both use Algeo mixers because they are modern and practical.

**BAG4** Standing sink mixer

## Common passions

It was my mother who taught me how to take pleasure in cooking. Now I can also share this passion with my own daughter. The moments in the kitchen are our time, we get to know each other, share small secrets, and at the same time create tasty and healthy dishes.

### MIXER

**BAG5**

## It perfectly matches the sink

I love the harmony of the interior when everything fits together. I prefer moderation in colours and textures which, for me, makes the space seem even more orderly. When I discovered that my granite sink can also be fitted with a mixer, I immediately knew it was perfect for me. I decided to choose the Freya granite mixer, which would blend beautifully with my dark sink. An additional positive surprise was the ease of keeping it clean, without fingerprints and water marks.

**Granite Graphite**

The mixer with a granite surface in graphite will best present itself with a granite sink in graphite. It will give the interior a serious and elegant look.

**Granite Sand**

A granite surface in sandy colour will warm up the kitchen arrangement. A mixer with such a surface will form a perfect match with a granite sink in the same shade.

**BFR41B** Standing sink mixer

# FREYA

Depending on colour and need

Two colours and a multitude of solutions. This is an offer for people looking for alternative finishes. Uniform colours, classic chrome, or maybe a perfect duo of colours with the sink? The Freya range of mixers was created for the purpose

of meeting these expectations. In order for the solution to additionally fit your individual taste, you can choose your favourite spout shape, and for those who above all appreciate functionality, a model with a pull-out spray and two jets.

BFR8S Standing sink mixer

## A perfectly fitting basin mixer

Beige and black are the shades that match finishing trends. It is worth to choose them as a base for any accessories and colours you wish. It is a choice for years.

**BTG4VL**

# RETRO NEW

## Timeless style

We like things tried and tested, well known to us, but also functional. Sometimes we prefer classic forms and preferred styles over modernity. While decorating the kitchen with my husband we decided to choose the Retro New mixer tap,

in a traditional style, which additionally sets the tone and character for the whole equipment. Complementing the interior with a few accessories in this climate, we created a warm and cosy living space.

## Comfortable operation

Mostly, I use cold water in the kitchen, either for watering flowers or for filling the kettle and I appreciate the comfort of using the Retro New mixer. All I need to do is just gently turn the knob and it's done.

# ZUMBA

Can do more

Our generation requires more from each other than from others. Without looking for limitations, we want to act, create and live life to the full. Our Zumba kitchen mixer is also unlimited. This is a product in which individual style,

innovation and functionality have defined the mixer tap design. Its flexible spout allows for unrestricted control of the jet at different angles and in any direction.

**BZA4L** Standing sink mixer  
**DR60/80L.H** Single bowl sink

## Cooking together is great fun

Well-chosen equipment means more comfort and less work. When you wash the fruit, you don't have to worry about the splashed sink and the mess in the kitchen. With Zumba it is easy! Just lower the spout and all the water stays in the sink chamber. Cooking together is great fun.

# ZUMBA II

Does it all

Our requirements grow with the opportunities that arise. The new Zumba model is a result of the new challenges faced by kitchen mixer manufacturers. Apart from a flexible spout it

also has two types of jet. The functionality of this mixer and its interesting shape makes every new user willing to choose it for their kitchen.

## Ease of use

The designers of the new Zumba have made a considerable effort to incorporate the jet switching function into the fashionable shape of the spout, so as to ensure comfort of use while maintaining a simple form. All it takes is a small rotation of the tip and we can use the spray jet, which is invaluable when washing food products.

## Universal flexible spout

The functionality of the flexible spout is one of its basic advantages, but not the only one. The possibility of choosing a colour for the interior and the ease of replacing the spout with another colour are equally important features. Unlike other flexible spouts, it is the shape memory, i.e. it will remain in the setting set by the user, that is its distinguishing feature.

**Universal flexible spouts fit the following lines:**

Zumba, Lugio Black i Ratio Black

You already have a mixer with a fixed spout from the above Ferro lines? Buy a spout in the colour of your choice, replace it and enjoy the functionality of a flexible spout.

# Granite sinks

Natural appearance and durability

Six types, twenty-four models, four colours are the current range of Ferro composite sinks. This

range will allow you to choose models for spacious kitchens but also for corners or kitchenettes.

**DRGM48/78BA** Single bowl sink  
**BZA4B** Standing sink mixer with flexible spout

## Reversible sink

One product, two settings. The position of the drainer can be adjusted to the individual needs of the user by turning the sink.

## The perfect duo

The mixer tap with granite sink looks perfect in the same colour finish.  
This set creates a kind of total look of the sink zone.

# Sinks

## Stainless steel

Traditional solutions, classic style

For all those who appreciate timeless solutions, for those who decorate loft-style interiors and for all those who like steel finishes we offer a whole range of steel sinks. The variety of solutions,

the possibility of mounting on the cabinet and on the countertop, different shapes are the distinguishing features of individual models.

**DR60/80L.H** Single bowl sink  
**BZA4W** Standing sink mixer with flexible spout

## Reversible sink

The drainer on the right or on the left? By choosing sinks marked with the „Reversible sink“ icon you can decide on this at a later stage. This will allow you to adjust it to individual kitchen needs.

Steel always  
in fashion

Regardless of the current colour trends, steel accessories are never out of fashion. In addition to the classics, the finishes guarantee us durability for many years.
