Pictograms and function markings

To increase readability and facilitate the use of product information, their main features and functions are presented in the form of icons.

Eco+

Products with this sign use less water and energy compared to standard models.

BATHROOM FITTINGS

Ferro AirMix

The faucet aerator with additional water aeration system. It allows you to use less water while maintaining the comfort of a rich stream.

Ferro Slim Air

Water saving aerator with adjustable water stream direction.

Ferro Click

Hot water control system and full open flow control system.

Ferro Click

Two-stage water flow control, allowing you to easily set half the water flow rate.

Ferro Eco Save

Ferro Eco Save limiter allow water savings of up to 50%. Installed in shower mixers they reduce the water flow.

AIR-IN System

The spray handle aeration system, thanks to which we save water while maintaining the comfort of an abundant jet.

Easy Clean

Spray handle nozzles and aerators made of plastic from which limescale deposits are easily removed.

Click-clack

Products with this icon are equipped with a click-clack plug - opened and closed by pressing.

Many types of jets

Possibility to change the type of jet.

Vertical adjustment

Vertical adjustment of the mounting bar.

Horizontal adjustment

Adjusting the distance of the bar from the wall.

VERDELINE 2021

The series of fittings limiting water consumption includes a wide range of products for comprehensive bathroom equipment. The mixers and showers of the Verdeline system offered by Ferro are equipped with innovative components that aerate, control the flow and enable water temperature regulation, which contributes to water saving. While focusing on ecology, we do not have to give up comfort or aesthetics. Comfortable to use, the Verdeline mixers are also characterised by a unique design in line with the most fashionable design trends.

Welcome to the world of FERRO

The FERRO Group is one of the largest manufacturers of sanitary and plumbing fixtures in Central and Eastern Europe with nearly 30 years of experience in the industry. Thanks to its commitment to high product quality and its mission to meet customer needs for a safe and well-functioning home, Ferro products are present in millions of places. Every year we introduce new products to the market, which better and better meet the expectations of even the most demanding customers.

The vision, mission and values set the direction in which we are going, inspire us in our daily work, define our way of functioning and approach to customers, employees, business partners and shareholders.

A good understanding of individual markets and their needs has enabled us to gain the trust of our customers and dynamic international expansion. Consistent investment in modern technologies based on the philosophy of sustainable development makes us offer attractive design and quality products for many market segments. As Ferro Group, we desire to develop a leading position in the field of bathroom and kitchen solutions and offer professional installation systems. We want to accompany our customers at every stage of contact with the product - from inspiration, through efficient delivery, to failure-free use.

The FERRO Group maintains its position as market leader thanks to its numerous advantages and market advantages.

Stable and secure position of the company

The Group owns several product brands, including Ferro, Metalia and Titania, which gives it a significant competitive advantage and ensures a strong market position. FERRO cares about maintaining standards of operation and continuous development of the range of high quality products, which allows to maintain a wide range of customers, increase confidence in the brand and maintain a stable market position.

Large-scale operations

In addition to its activities in Poland, the FERRO Group offers its products in Europe and on numerous foreign markets, becoming one of the largest manufacturers of sanitary and plumbing fixtures in Central and Eastern Europe. Our products are produced at the Czech factory NOVASERVIS in Znojmo as well as several other factories in Europe and Asia.

High quality of products

The FERRO Group is constantly striving to achieve the best possible quality parameters. FERRO places particular emphasis on meeting the requirements of the applicable standards, maintaining high technical parameters, safety and functionality of its products. This is emphasized by the fact that the FERRO Group has implemented the ISO 9001:2008 Quality Management System. Thanks to special attention to quality, our company has been repeatedly awarded and honoured for the high quality of products by the environment and industry institutions and reputable industry magazines.

Exceptional team

Our company and its success is made up of People, considered to be the most valuable asset of the Group. FERRO's organizational culture is created by people with passion and open-mindedness, which is why we employ exceptional employees and ensure their continuous development.

Ecology

According to Ferro

Ferro is the undisputed leader in ecological solutions regarding mixers and showers which enable water saving up to 50%. The company is a precursor of such solutions - in 2009 it was the first Polish manufacturer to introduce the Verdeline technology. Achievements in this area have been confirmed by an international distinction - selected Verdeline mixers have joined the prestigious European Water Label database.

The acquisition of Termet and Tester companies by Ferro S.A. in 2021 enabled the company to offer its customers not only modern sanitary solutions for bathrooms and kitchens but also to provide high quality technology guaranteeing a warm and safe home. The issues related to energy saving and managing heat sources, which are close to Termet's activity, perfectly fit into Ferro's philosophy. Now ecological water saving solutions from Ferro will be supported and developed thanks to the production of modern boilers meeting the highest standards and guaranteeing safety of use.

Plan for the Future

You can start saving water by changing your daily habits and equipping your bathroom with special fittings that limit water consumption.

By acting ecologically today, you will plan and take the best care of your loved ones tomorrow.

Ecology is Today and Tomorrow

The broadly diversified offer of FERRO fittings as well as products with ecological features deserve special attention. On the Polish market, these are products that include Verdeline in their name. Mixers from this line allow for saving water and reducing the consumption of energy necessary for its heating, thus significantly reducing household costs. Their high quality is attested to by numerous awards and prestigious certificates. In addition, ten Verdeline products have been awarded the European Water Label.

ENVIRONMENTALLY
AND WALLET FRIENDLY
SOLUTIONS

The Verdeline series is designed to minimise water consumption without compromising comfort. In addition to their functionality, individual models are also characteristic for their modern and fashionable design.

ECO+

This mark is given to products with ecological solutions. Their use will reduce water consumption compared to standard products.

Water-saving Features

Verdeline mixers and showers incorporate innovative water-saving and household budget-saving components that combine to form a modern, well-functioning system.

These components aerate, control the flow and regulate the water temperature, helping to reduce water consumption by up to 50%.

Ferro Air Mix Aerator

Fittings from the Verdeline series are fitted with aerators with an easy limescale removal system. Installed at the end of the spout, they aerate and reduce the water flow allowing to reduce water consumption by up to 50%.

Ferro Eco Save

Products with a Ferro Eco Save limiter allow water savings of up to 50%. Installed in shower mixers they reduce the water flow.

Ferro Click

The FerroClick ceramic head gives full control of the water flow rate and allows to prelimit the flow of hot water. The red ring that blocks the rotation of the handle in the direction of hot water can be used to set the limit of its flow rate.

Ferro Click

Products with the FerroClick head allow for two-stage flow control, making it easy to set half the water flow rate. With the FerroClick two-stage head, the water flow can be reduced by up to 50%.

AIR-IN System

The AIR-IN System function determines additional aeration of the water stream. It allows for the use of a smaller water volume while maintaining comfort at the same time.

An aerial photograph of a river winding through a dense, lush green forest. The river is a dark blue line that meanders through the vibrant green canopy of trees. The perspective is from directly above, looking down at the river and the surrounding forest.

SAVING WITH FERRO

More than You Expect

Saving water, reducing household expenses, being eco-friendly every day – all this is ensured by modern mixers with the innovative Verdeline system. Functional mixers and showers, thanks to their interesting aesthetics in line with the latest design trends, will also be a brilliant decoration of bathroom and kitchen interiors. The combination of practical functions and unique design will guarantee satisfaction and comfort of use for many years.

Balancing Your Profits

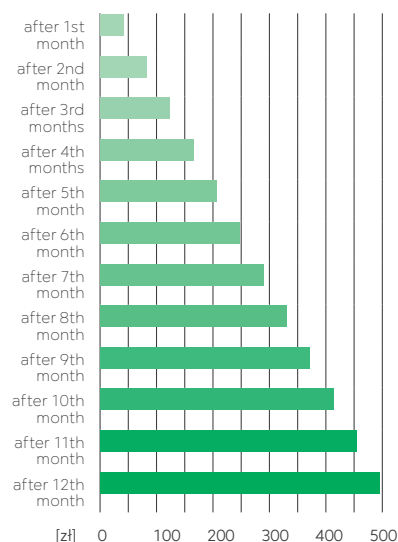

Reducing water consumption not only enables us to follow an ecological lifestyle and care for the natural resources of our Planet, It is also a great way to significantly reduce your household bills. It's a way of life that simply pays off!

VERDELINE MIXERS

VENETO VERDELINE

Towards Nature

The elegant Veneto Verdeline collection will splendidly present itself in interiors of various styles. Its design is based on harmoniously composed surfaces of the square and the rectangle. The stable geometry of the spatial form, the marked edges and the lines breaking at right angles emphasise the unique character of these magnificent mixers. The gentle curves of the spouts and the rectangular handles add lightness and dynamic appearance to the collection.

ALBA VERDELINE

Create a Better World

Alba Verdeline are mixers designed for comprehensive bathroom furnishing. The collection is characteristic for its geometric form of the body, as well as the simple shape of the handles and spouts, subdued by gently rounded edges. The mixers will perfectly present themselves in spacious bathrooms, accompanied by elegant washbasins and bathtubs, and will perfectly complement modern shower rooms.
