# ZUMBA SLIM 2F

Flexible precision

A kitchen faucet that perfectly combines product functionality and design trends. Zumba Slim 2F, because we are talking about it, is another model of kitchen taps with a flexible spout, which has joined the Ferro offer. It is a great proposition for users who appreciate the refined form and perfect color matching of the equipment.

## Functionality and ergonomics

The high spout and its flexibility are by far the most important features of the new Zumba Slim 2F. They allow for unhindered use of the faucet and individual adjustment of height and range. Each user can adjust the spout setting to his needs.

### 2-function switch

Convenient to use switch allows you to quickly change the stream. After closing the flow, it automatically returns to its original position.

### Stream

The concentrated, uniform stream from the center of the spout allows for precise filling of the vessels.

### Spray

The stream is dispersed through nozzles located within the perimeter of the spout is practical for rinsing fruits and vegetables and hand washing.
